

Filter cleansing in swimming pool constructions

The RexWall Composites Technology offers an expertise of the filter in conjunction with repair and cleansing concepts or a new acquisition of filter systems.

Cross draft of a composite filter floor

Spill of a filter body

Repairing / cleansing of the filter offers following advantages:

- No new acquisition essential
- Extension of the delay
- Shortening of outage time in comparison to new acquisition
- Low inputs
- Periodic maintenance connected to a maintenance contract

Coating of the cleansing filter

Finishing coat of the inner surface of the filter
