

**First swimming full (GRP) composite housing boat „Alpha F III“
with sport boat certificate run all over the world**

Lauenburg/Elbe-Germany 2011 – The Deutsche Composite GmbH group proves its expertise's again. In front of the Hamburg gate, a swimming housing boat production run with sport certificate and Germanischer Lloyd certificate for the time being without engine but prepared has been developed which is applicable on Europeans sheet of water, nearly unlimited. The complete housing boat is manufactured of patent pending (GRP) composite RexWall plates including pontoon. This high-tech-material comes with excellent thermal insulation values and mechanical qualities so that a RexWall housing boat is useable on water all-season and is actually save for hurricanes class 1. The construction of the housing boat can be color designed individually and assembled on place. Extra luxury equipment like an oven with chimney can be integrated easily.

Habitable surface:	45m ²	=	living room including a kitchen	20,5m ²
			bedroom	12,04m ²
			children room/office etc.	8,88m ²
			bathroom	3,94m ²
active surface:	80m ²	=	house & pontoon	
pontoon:	l/w/h	=	11,90m x 7,40m x 1,20m	
house	l/w/h	=	7,92m / 6,20m / 3,5m	
total height minus water draft ca. 0,20m		=	4,10m	
free board		=	1,00m	

The consequent use of RexWall composite-sandwich-technology is the key for cheap, unattended and technical predominated building constructions. According to Dietmar Biessler, director of the RexWall group, the spectrum of application of plates is exhaustless. „It offers the possibility to develop technical predominated constructions and pontoons for an application of every description.“

Information about products like pontoons with low cellars, bare brickwork for swimming houses and constructions of every description can be located in www.rexwall.com
