

Composite – pipeline constructions

The Deutsche Composite GmbH operates on repair-, installation- and disassembly works, all over the world.

Furthermore, we offer projecting and planning of your whole building project. With the collaboration of our partners in their planning offices and pipeline construction companies, we can offer you the full spectrum of composite pipeline constructions.

Services:

- A „single source“ concept
- Contact for the whole project
- Bundling of competences
- Privation repairing by 24/h service

Your advantages:

- High chemical- and seawater resistance
- High stability at low weight
- High durability
- Minimum costs of maintenance
- Simple installation with certified teams according to the Deutsche Composite Codes (DCC)

Gladly, our team of Deutsche Composite GmbH will be of help for your next project.
